

Love Your Man

Sherman Barry

When life is gold you try to hold, a woman loves her man
And tries to keep bad dreams away, she does the best she can

Love may stay or fly away, sometimes we are alone
The Angels will find someone who, you can call your own

CHORUS

Just don't forget to love him, tell him you're thinking of him
Just don't forget to tell him, you want your arms around him
If you have found, well, solid ground
Just love your man, well all you can

Sometimes we wish that love could be just a little stinger
That the one you truly love would stay a little longer
When life is gold you try to hold, a woman loves her man
And tries to keep bad dreams away, she does the best she can

CHORUS

Well if you have found, solid ground
Love your man, well all you can
Just don't forget to love him, tell him you're thinking of him
Just don't forget to tell him, you want your arms around him
Yeah
