

Morning Noon and Night

I love you in the morning, I love you at night
Every time that we kiss, It's a pure delight

Can't imagine how the world, would be
without you
Everything would still be here, but it would
all be blue

CHORUS

Oh how I love you girl, morning noon and
night
Oh how I love you girl, all day and night

When I'm missing you so much, I stay up all
night
My dream is that you appear, in the
morning light
