

Fool Around

Sherman Keene

Ho ho ho ho
Ohh yeah

I heard a rumor you were the source
You said I's bad said I was course
Hey baby i don't go for that
Goin find a girl knows where it's at

Put on some night clothes at my place
We'll go out dancing . . . face to ffffface
I got something that's right for you
We can do anything that you wanna do

There's plenty of girls in town
Who like to fool around

Hello sinner say what's your name?
Do you like me wanna play a game?
Why I'd like to put my . . . cards on the table
Why I'd like to get down with you when you're able

There's plenty of girls in town
Who like to fool around
