

Contents

Preface	v
About the Author	vi
Foreword by Wally Heider	vii
Dedication	viii
Basic 1—Operating Procedures 1	1
Setting Up the Studio	1
The Instrument Code	3
The Recordist’s Code	5
Getting Levels and EQ	6
Tape Run In, the Slate, Tuning Notes, the Count Off	7
Breaking Down	8
How to Avoid Alienating Future Sources of Help And Guidance	8
Common Miking Techniques Used In The Studio	8
Solo Vocal Recordings	8
Group Vocal Recording	9
Percussion	9
Stringed Instruments	10
Plectrum Instruments	11
Horns	11
Woodwinds	11
The Recording Console	11
The Input System	11
The Buss Output System	12
The Monitor Output System	12
The Cue Output System	12
The Recording Process	13
Tracking	13
Overdubbing	13
“Bouncing” Type Operations	13
Mixing	13
Studio Documentation	13
The Take Sheet	14
The Track Sheet	14
The Session Layout Drawing	15
Test Your Understanding	15

Basic 2—Microphones 1 17

Condensers, Dynamics, Ribbons, PZMs and Contacts 17
Microphone Pickup Patterns 19
Choosing Mikes For Different Instruments 20
Microphones And Pickups 20
 Condenser Mikes 20
 Ribbon Mikes 22
 Dynamic Mikes 22
 Contact Mikes 23
 Vibration Transducers 23
 Capacitive String Pickups 23
Test Your Understanding 24

Basic 3—Instruments 1 25

Tones, Transients, and Noise 25
 Acoustic Energy 27
Properties of Instruments' Sounds 28
ADSR 28
Where Does the Music Come From? Where To Put the Mike? 28
Music Collection Distance 29
The Table of Signals and Noises 29
 Waveshape 32
 Frequency 33
 Amplitude 33
 Wavelength 33
 Envelope 34
Transducers 34
Acoustics 35
Separation 37
Addition Of Waveforms 37
Test Your Understanding 38

Basic 4—Console Parts and Functions 39

Zeroing the Console at A Session's Start 39
Use of the Pads and Trims 41
Balanced In puts 43
Inboard Equalization 44
Zeroing the Console At The End of the Session 44
Equalizers 44

Equalization Ranges	45
Very Low Bass Frequencies	46
The Bass Frequencies	46
Mid Range And Presence Frequencies	46
Brilliance Frequencies	47
Recording With EQ	47
Consoles	47
The Signal Input System	48
The Signal Sizing & Shaping System	49
The Buss Output System	49
The Auxiliary Output Systems	51
The Monitor and Cue Output Systems	51
The Patching System	52
Console Subsystems	52
The Input Channel	53
The Direct Switch	53
Recording Buss	53
Line Amplifier	54
Filters	54
VU Meters	54
Peak Indicators	55
PPMs	55
Cue	55
Solo	55
Regeneration	56
Program	56
Sync	56
O/D or Overdub	56
Slate	56
Talkback	56
Studio (Stage) Talkback	57
Mute	57
Dim	57
Compat	57
Test Your Understanding	58

Basic 5—Basic Audio Theory 59

Electrical Signal	59
Acoustical Leakage and Non-Musical Sounds	59
Operator Noises	60
Noise Prevention	60
VU Metering	61
Peak Metering	61
The Gain Structure Diagram	62
Gain Structure Symbols	62

Gain Structure Definitions	64
The Decibel	67
Waveform Addition and Subtraction	67
Example of Using Out Of Polarity Mikes	68
Recording Tape Limitations	68
Test Your Understanding	70

Basic 6—Types of Console Operation 71

Tracking	71
Overdubbing	71
Stacking	72
Combining Tracks	72
Ping-Ponging	73
Steps For Performing Ping-Ponging	73
Generation Loss	74
Mixing	74
Recording In Sync	75
Tracking Sessions	76
Getting The Information	76
Setting Up The Session	76
Helping The Musicians To “Move In”	77
Getting The Sounds	77
Running It Down	78
Recording Takes	78
Playing It Back	79
The Quick Overdub	79
Going On To The Next Tune	80
Overdub Sessions	80
Live Overdubs	80
Bouncing Tracks	80
Monitor And Cue Balancing For Overdubs	81
Mixing	82
Normalizing The Console for Mixing	82
Getting The Sounds On The Instruments	82
Getting The Mix At The Hottest Portion	83
Working Out The Fader Moves	84
Mixing The Song Or Song Piece	84
Checking The Mix	85
Marking The Faders At The Current Position	85
Playing Back The Completed Mix	86
Monitor Volumes And Modes	86
Edit And Assembly Sessions	87
To Get Rid Of Clicks And Pops	89
To Tighten Up Down Beats	90

To Set The Order Of The Songs	90
To Set Pauses Between Songs (Analog Tape)	91
Test Your Understanding	92

Basic 7—Operating Procedures 2 93

Patching Microphones	93
Console Symbols—Review	93
Ground Loop Solutions for Direct Boxes	95
Direct Box Use for Three Wire AC Amps	97
3 Wire AC Instrument Amp Grounded, Console Lifted	97
3 Wire AC Instrument Amp Ground Lifted, Console Non-lifted	97
3 Wire AC Instrument Amp Isolated, Console Non-Lifted	97
2 Wire AC Instrument Amp Ground Non-Lifted, Console Lifted	99
2 Wire AC Instrument Amp Isolated, Console Non-Lifted	99
Phase Checking	99
Cleaning Tracks	99
Y Cords	100
Mults	100
Impedance	100
Impedance Ranges	102
Characteristics Of Different Impedances	102
Low Impedance Lines	103
High Impedance Lines	103
Test Your Understanding	104

Basic 8—Tape Machines 1 105

Recorder Block Diagram	105
The Volume Controls	105
Tape Recorder Block Diagram	106
The Switches	107
Bias	107
The Ampex Bias Explanation	108
The Hysteresis Curve	112
Distortion of Tape Machines	113
Magnetic Fields and Accidental Tape Erasure	114
Tape and Handling and Storage	115
Storage Of Magnetic Tape	116
Digital Recordings	116
Analog Recordings	116
Archiving To CD	117
Analog Tape Temperature Considerations	117

Humidity Considerations	117
Contaminant Considerations	117
Magnetic Field Considerations	118
Physical Damage Considerations	118
Good Operating Habits	119
Major Catastrophe	119
Test Your Understanding	120
Basic Level Test	120

Intermediate 1—Acoustics 1 121

Waveforms, Frequency, Wavelength, and Amplitude	121
Wave Propagation	122
Reflectors, Diffusers and Absorbers	122
Enclosing Sound—Small Rooms	123
Acoustical Spectrums and Directivity	126
Envelope Shape—Which Mike?	126
Phasing And Polarity	126
Polarity	126
Phase	128
Good Operating Habits	129
Test Your Understanding	129

Intermediate 2—Console Symbols for Diagrams 131

The Console Block Diagram	131
Selects and Assigns	136
Patching	136
Console Solos	139
Submaster/Master and VCA/Group Formats	140
VCA	140
Phase Scopes and Meters	141
PCNs And ACNs	142
PCNs	142
ACAs	142
The Phase Scope	142
Test Your Understanding	142

Intermediate 3—Operating Procedures 3 145

Degaussing and Cleaning the Heads 145
 Setup Procedure 146
Editing Tape 146
 Narration Editing 147
 Musical Editing 148
Rocket Erase Outs 149
Rocket Punch Ins 149
Tape Editing by Joe Tall 150
 What Is Tape Editing? 150
 Tape Splicing Materials 150
 The Editall Splicing Block 151
 How Do You Find Out Where to Cut the Tape? 153
 Establishing A Tape-Marking Point 153
Sound Recognition 155
 Recognize Sound By Listening In Reverse 155
 Speech Characteristics 156
 Mood 156
 Pace (Tempo Of Speech) 156
 Editing With Rhythmic Background Sound 156
 Speech Habits 157
 Inflection 157
 Cutting Within Sound 157
 Hearing Sensitivity 158
 Hearing Fatigue—Its Avoidance 158
 Time Factor In Hearing 159
 Hearing Persistence 159
 Memory Obliteration or Hearing Shock 160
 Effects of Editing Too Closely 160
 Conclusion 160
 Tape Speeds 161
Operating Levels 161
Alignment Notes 162
Print-Through 163
Head-To-Tape Contact 163
Analog Recorder Head Alignment 164
 Azimuth 164
 Zenith 164
 Height 165
 Rack 166
 Wrap 166
 Inter-Track Alignment 166
Splicing of Analog Magnetic Tape 166

Editing Tape	167
The Layout of Materials	167
Types of Editing	168
The Editing Procedure	169
Test Your Understanding	170

Intermediate 4—Musical Terminology 171

Basic Terms	171
Parts of the Popular Song	171
Instruments and Voices	172
Instrument Dynamic Range	173
Instrument Overtones and Harmonics	174
The Digital Metronome	174
The Ear/Brain Hearing System	176
Dynamic Range	176
Spectrum Capabilities	176
Peculiarities Of The Ear/Brain System	177
Frequency Response	177
Creation Of Harmonics In The Ear	178
Creation Of Sum And Difference Tones	178
Creation Of Beats	178
Monitor Systems And Acoustics	178
Pan Pots	179
Test Your Understanding	179

Intermediate 5—Intermediate Audio Theory 181

Musical Instrument Spectrums	181
Preparation of Dynamic Range and Levels for Signal Transmission	182
Headroom	183
Gain Setting for Nominal Levels Through the Console	183
VU, Plasma, and PPM Meters	185
Signal-to-Noise Ratio	186
Equivalent Input Noise	187
Phase Distortion	188
Generation Loss of Tape Recordings	188
Microphone Specifications	189
Microphone Sensitivity	189
Amplitude Response	189
Comb Filtering	190

Dynamic Range Alteration	191
Test Your Understanding	194

Intermediate 6—Tape Machines 2 195

Dynamic Range	195
The NAB and AES Recording EQ	195
Ampex’s Pre-emphasis Notes	195
Tape Speeds	196
Transport Types	196
Closed Loop	196
Single Servo Transport	198
Dual Servo Transports	198
Search to Cue	199
The Selectake One	200
The Selectake Two	200
Ampex SPSTC	200
XT-24	201
Digital Recorder Locators	202
Master Boxes of Multitrack Tape Machines	202
The Ampex 1200 Master Box	202
Ampex MM1200 Manual Excerpt	204
Making a Recording—With Sel Sync	206
Analog Magnetic Recorders	208
Digital Recorders	208
Recording Tape	209
Self Erasure	210
Low Frequency Losses	210
Test Your Understanding	210

Intermediate 7—Operating Procedures 4 211

Tape Speed Problem Prevention (Resolving)	211
Machine Setup Procedures Using the Dolby Noise Reduction System	216
Alignment with Noise Reduction (Part 1)	216
The Procedure	216
The Explanation	216
Alignment with Noise Reduction (Part 2)	217
The Procedure	217
The Explanation	217

Alignment with Noise Reduction (Part 3)	218
The Procedure	218
The Explanation	218
Alignment with Noise Reduction (Part 4)	218
Alignment with Noise Reduction (Part 5)	218
Alignment with Noise Reduction (Part 6)	219
Dolby Noise Reduction System Alignment for M-8, M- 16, And M-24 Units	219
Initial Session Including Recording the Project Tones	219
Dolby System Alignment for Continuing Sessions	220
Possible Termination Problems When Aligning 361 Dolby Units	220
Setting Up the 361 Dolby System (Initial Setup Including Recording the Master Project Dolby Tone)	221
The Procedure	221
The Explanation	221
Setting Up The 361 Dolby Unit (Continuing Session)	222
The Procedure	222
The Explanation	222
Solving Cue System Shorts and Other Problems	223
Solutions for Phantom Microphone Problems	224
Solving Console Audio Problems	225
Making Safety Copies	226
Making A Master Reel	227
Tape Copies	228
Poor Man’s Automation	228
Automation’s Last Pass	229
Segues	230
The 2 + 2 to 2 Method	230
The In Multitrack “Organic” Method	231
The 24 + 2 to 2 Method	231
Backwards Overdubbing	232
Reverb System Setup	233
The Dolby Noise Reduction System	234
How Dolby Processing Eliminates Noise	234
Results Of Improper Dolby Alignment	235
Test Your Understanding	235

Intermediate 8—Acoustics 2 237

Distortion of Microphones	237
Transient Tracking Ability—Hardness	238
Many Mikes or Few Mikes	238
Unusual Microphone Techniques	240
The Flying Guitar Trick	240
The Mike in a Container Trick	241
The Anti-Pop Pencil Trick	241

The Wrong Side of the Mike Trick	241
Practical Microphone Considerations	241
Acoustical Delay	241
Equalizing	242
Test Your Understanding	243
Intermediate Level Test	243

Advanced 1—Acoustics 3 245

Isolation Booths	245
Extreme Acoustical Dynamic Range	246
Human Hearing	247
Fletcher Munson Phenomena of Interest	248
Echoes and Reverb	249
Reverb	249
Pre Reverb	249
Echo	249
Ohm’s Law and the dB	250
Hearing in Stereo	251
Intensity Stereo	251
Mutually Exclusive Pickup Patterns	251
MS Miking Technique	252
Spaced Apart Stereo Miking	253
Phase	253
Inter-Ear Spectrum	253
The Precedence Effect	253
Test Your Understanding	254

**Advanced 2—
Tape Machines 3 255**

Wow and Flutter	255
Recorder Head Alignment	255
Azimuth	256
Head Height	256
Rotation	256
Zenith	256
The VSO	257
NAB and Elevated Level	258
PURC	258
Using Variable Speed Recorders	259
Putting A “Wrap” On The Capstan	259

Using A VSO	259
Substituting An Oscillator For The Crystal	260
Playing A Tape Backwards	260
Making Backwards Recordings	261
Test Your Understanding	262

Advanced 3—Advanced Audio Theory 263

XLR And RTS Configuration	263
Simple Wiring Procedures	263
Ohm’s Law and the Ohm Meter	265
The dB in Mathematical Terms	266
The Watts Formula	268
Wiring And Wiring Formats	268
Definitions	268
Test Your Understanding	270

Advanced 4— Special Effects 1 271

Reverberation	271
Dynamic Processing	272
Cross Limiting	272
Triggered Limiting	273
More Uses	274
Slope and Threshold	274
dB Over Threshold	277
Operation of Dynamic Processing Devices	277
The Keyplex	278
Compressing The Mix	281
Parametric EQ	282
Digital Delay	283
Tape Delay	283
Echo Loops	283
Tape Loops	284
Tunnel Echo	284
Digital Reverberation	285
Common Special Effects	285
Reverb	285
Echo	287
Test Your Understanding	287

Advanced 5—Special Effects 2 289

Digital Pitch Changing 289
Digital Operations with Musical Notes 290
Lagarithmic Pitch 291
Phasing with Tape Machines 292
Flanging 293
Envelope Generators 293
ASDR 293
Ring Modulators 294
The Aphex 294
Vocorders 294
Dynamic Processing 295
 Limiters 295
 Compressors 295
 Expanders 296
 Stereo Dynamic Processing 297
 EQing Dynamically Processed Sounds 297
 Digital Post Mastering 298
Test Your Understanding 298

Advanced 6—Advanced Audio Systems 299

Phantom Supply 299
Tach Servo Systems 300
MIDI 300
 A Basic MIDI/Digital Home Studio 301
 MIDI Hookup 302
 MIDI Send Diagram 303
 Audio Hookup 304
 Audio Return Diagram 304
 Testing The System 306
 Learn Your Sequencer Perfectly 306
 MIDI Commands 307
 MIDI Control Channels 307
 MIDI Sequencer Resolution 307
 To Metronome or Not 308
 Multiplayer Sessions 308
 MIDI and General MIDI 309
 A MIDI Production Example 309
 MIDI Note Editing 312
 The Boss BR-8 313
 Mix Audio or Digital? 314
 The Pure Digital Studio 316
The Digital Recording Medium 316

The Digital Recording Process	316
Resolving and Interlocking	317
Self-Resolving	317
Master-Slave Resolving	318
Time Code To Sync	319
Automated Mixing	320
Automation Modes	321
VCA Grouping	321
Utilizing the Automation	322
Test Your Understanding	322

Advanced 7—Distortion Varieties 323

Distortion of Microphones	323
Distortion of Consoles	323
Distortion of Tape Machines	324
Distortion Types	325
Analog Disks	326
Disk Cutting Lathes	326
Quality Losses Of Analog Disk Recording	328
Digital (Compact) Disks - CDs	329
Test Your Understanding	329

Advanced 8—Audio Psychology 331

Think Before Speaking	331
Environmental Impact and Control	331
Control Room Etiquette	331
Confidence	332
Being Authoritative	332
Egos	332
Speediness	333
The “Turn It Up” Phenomenon	333
The Inverse Cue System Volume Phenomenon	333
Singers Who Crowd The Mike	334
Drugs, Sleep and Fatigue	334
Last Words	334
Test Your Understanding	335
Advanced Level Test	335
Course Grand Test	335

Index 337
