

Banjo Man

Sherman Keene

When he lived here long ago
He played in the band
And all the people that we knew
Loved the Banjo Man

Always seemed so right in tune
Whenever we would play
The same with people that we knew
Would brighten up the day

Children living in "them" hills
Would seek him every day
And sit with him in the Sun
Just to listen to him play

Banjo solo
Vocal ahhs

One day he came by with his Ode
To say goodbye to all
And he left us all behind
And vanished in the Fall

Yes he lived here long ago
When the children ran
Practicing the love they felt
For the Banjo Man

Children living in "them" hills
Would seek him every day
And sit with him in the Sun
Just to listen to him play

Banjo outro
