

Lighthouse On The Sea
Eddie One-String Jones

Well my baby got teeth like the lighthouse on the sea
My baby got teeth like the lighthouse on the sea
Every time she smiles, man
She throws down those lights on me

You start livin and you can't keep with that one you love
You start livin and you can't keep with that one you love
You know that make life so mis-a-ble
You grieve like a turtle dove

Them rocks in them mountains they nearly bout treetop tall
Them rocks in them mountains they nearly bout treetop tall
Won't you just hold me grounna
And please don't you let me go

Where were you grounna when the rollin mill went down
Where were you grounna when the rollin mill went down
I was out in the country yas and a half a mile from town

Did you ever wake up in the mornin and find your grinder gone
Did you ever wake up in the mornin and find your grinder gone
You will wring your hands you will cry the whole day long

Well I'm leavin you baby put a hand crepe on your door
Well I'm leavin you baby put a hand crepe on your door
If my mind don't change right
I won't come back here no more
