

Now I Believe Your Love  
Sherman Keene

Ohh sweetie you are the one  
I just want to be with you

I used to think that you could not be true  
Now I believe your love  
I was just another friend you knew  
Now I believe your love  
After all this time I think it's true  
Now I believe your love  
You love me and baby I love you

I've been hurt before yeah just like you  
Now I believe your love  
Love came back to me when I met you  
Now I believe your love  
I hope you give it time to see it's true  
Now I believe your love  
You love me and baby I love you

CHORUS

Now I think the world is beautiful and new  
Now I believe your love  
Doesn't seem right when I'm not with you  
Now I believe your love  
When the time comes I can be with you  
Now I believe your love  
I'll show you every day my love is true  
Now I believe your love

I've been hurt before yeah just like you  
Now I believe your love  
Love came back to me once I met you  
Oooo Oooooo  
I hope you give it time to see it's true  
Now I believe your love  
You love me and baby I love you

CHORUS

I used to think that you could not be true
